STUDENT SERVICES REPORT

Dr. Gabbard also reported on the results of the new two-credit college summer readiness class, which featured thirty students from the Benton Harbor Promise Zone program. Twenty-nine of the thirty students completed the LMC program, and attendance was about 86 percent, versus 80 percent for the college overall. About 62 percent are returning to LMC this fall, versus 35 percent for the 2011 Promise Zone group.

VI. **NEW BUSINESS**

HEALTHCARE EDUCATION INSTITUTE

The proposed Healthcare Education Institute (HEI) will bring together both short-term training and credit education programs in high-skill, high-demand, high-wage occupations in the healthcare industry that meet the needs of the regional and national economies. The HEI will offer a new, innovative approach to education and training that offers program options that lead to credentials of value and articulate non-credit programs with credit programs in a ladder approach. This approach will provide educational and life-changing opportunities to students who may otherwise not have the economic stability and confidence to pursue higher education beyond a short-term training program.

ACTION

It was recommended that the resolution to establish the Healthcare Education Institute (HEI) be approved by the Lake Michigan College Board of Trustees as presented.

MOTION by Dr. Lindley, supported by Mr. Small, to approve the establishment of the Lake Michigan College Healthcare Education Institute.

**Lake Michigan College
Healthcare Education Institute Resolution**

Whereas, Lake Michigan College wishes to provide a range of programming that meets the healthcare needs of the region; and

Whereas, the College is committed to advancing opportunities for short-term training that provide entry into the workforce for those who, for economic and personal reasons, choose not to engage in longer-term degree or certificate programs at this point in their lives; and

Whereas, building stackable credentials in the healthcare field, through both credit and non-credit educational activities can allow students to continue their education seamlessly as they gain experience and advance in their careers; and

Whereas, enrollment patterns, labor market, and college survey data indicate an increasing demand for the Associate Degree Nursing graduate over the Licensed Practical Nursing graduate;

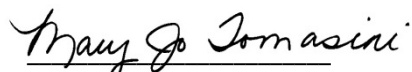

Therefore be it resolved, that the Board of Trustees approves the establishment of a Healthcare Education Institute (HEI) which will bring together both short-term training and credit education programs in healthcare occupations that meet the needs of the regional and national economies. The HEI will offer an innovative approach to education that articulates non-credit and credit programs in a ladder approach and results in credentials of increasing value to the student and to employers. This approach will provide educational and life-changing opportunities to students who may not otherwise have the economic stability and confidence to pursue higher education beyond a short-term training program. In the context of the establishment of the HEI, the College will also de-activate its Licensed Practical Nursing program in favor of increasing the capacity of its Associate Degree Nursing program, which reflects both long-term student enrollment patterns and industry hiring trends.

LMC United Way of Southwest Michigan Campaign

Lake Michigan College's 2013 United Way campaign was a success thanks to all those who made a pledge, pumped gas, ate a baked ziti lunch, enjoyed a Dairy Queen Dilly bar, received a pie in the face, and participated in the Float the Moat canoe race. The contributions received from all fundraising events were \$1,700. The college surpassed its goal of \$12,000 by raising \$18,200. One hundred and two faculty and staff members (42% of our employee base) contributed, with at least thirteen of those being new donors.

On October 10, the United Way committee (*Deb Montcalm, Jodie Littlefield, Kris Behr, Rebecca Steffen, Jacquie Johnson, Krista Elkins, Mary Lou Elson, Pam McVay, and Rita Whise*) hosted a celebration for college faculty and staff. A heartfelt thanks to all who pledged, volunteered, or donated.
